

OSIRIS

MULTI-SENSOR CAMERA PLATFORM

The Osiris camera platform is an accurate, high specification, mid to long range PTZ camera platform capable of supporting multi-sensor technologies, including long range illumination. With the option of harmonic drive gears, the Osiris is highly accurate with almost zero backlash.

THERMAL SENSOR OPTIONS INCLUDE:

Uncooled LWIR Fixed Lenses:

- 14mm to 100mm (17 μ m)

Uncooled LWIR Zoom Lenses:

- 15-100mm to 25-225mm (17 μ m)

Uncooled LWIR LR Range Zoom Lenses:

- 15-75mm to 25-225mm (12 μ m)

Cooled MWIR Zoom Lenses:

- 19-275mm to 35-690mm (15 μ m)

VISIBLE SENSOR OPTIONS:

HD Visible Low Light Zoom Lenses:

- 4.3-129mm
- 15.2-500mm
- 16.7-2000mm (with 2x extender on)

4K Visible Low Light Zoom Lens:

- 4.4-88.4mm

HD Visible Ultra Low Light Zoom Lenses:

- 15.2-500mm
- 20-1200mm
